PHONE 600

The management of the Boyd Home for Funerals has no desire that any family should pay more for a funeral in their time of bereavement than they would have been willing to spend three months before or

It is for that reason we offer the plan of advance arrangements. It is a safeguard against overspending of funds that should be used for other purposes.

Anvone interested may come and ask about funeral service, and make advance arrangements if that seems desirable. However, you incur no obligation by making such an inquiry.

It is time that some small word of praise, at least, be put forward including Dr. Howard A. Rusk, one for the hardy housewife who fought her own war within a war to make of the nation's leading authorities her men more comfortable.

When food was a matter of making one ration ticket do the work of a four-course dinner, she bargained with the butcher and grocer, dous gains in the veterans' medical stood in line for long hours and rushed here and there to confirm rumors service and increasing confidence that this or that shop had some choice, unattainable item. So expert from both veterans and the public, was she that many an American dinner table really suffered little from sharing its food with the services and a hungry world.

She stepped on tin cans, strained grease, saved fuel, collected old cated. In the past, political influclothes, entertained soldiers and sailors, knitted and sewed and-well, what didn't she do? Men are much too apt to forget these things.

And even yet, she is trying to see that her family enjoys its share plus with which to reward the folks of the good things of life. Although the load has been lightened, she is still tramping on tin cans, worrying about butter and reversing the communities hard to reach and recollars on superannuated shirts. Clothing collections keep her poking mote from any center of medical about in the basement and the closets.

If time permits after all that, she must shop about in the hope verse this pattern. He has stood out of picking up a pair of hose, ever dreaming of nylon, that wondrous like a rock of honesty against all of picking up a pair of hose, ever detailing up a pair of hose a keep herself looking well.

He is Field Director of the Peoples Missionary Society, of which Dr. Oswald J. Smith, of Toronto, Canada, is president.

He helps to support over 200 missionaries in 23 countries of the world.

He is an Evangelist of rare qualifications, having travelled and preached in 38 countries all over the world.

He is a friend of the local pastor and encourages his audiences everywhere to become a member of and support the church.

He believes very definitely in the inspiration of the Bible and the great doctrines of the word of God. Such as, Creation, the fall of man, resulting in his lost and hopeless condition without Christ. The Redemptive work of the Lord Jesus Christ, in His death on the Cross of Calvary. In His literal resurrection from the dead. His present work as our Advocate at the right hand of God. In the personal pre-millenial, and near return of Jesus Christ. ### THOU SHALT NOT KILL!

When those sacred words become the safety motto of every drivertraffic tragedies will end.

When the value of human life is gauged by the heart and mind—not by the speedometer-killing and maiming on our streets and highways

> Read the record for 1945 Killed 1,380

Injured 34,535 And the toll steadily is mounting

Thousands of people sacrificed to bad driving judgment. Recklessness. The mania to get "there" fast. That extra drink or two. Driving a car not fit to operate.

It must stop-NOW

Human life is too precious to be sacrificed on the savage altar of carelessness. YOU-the driver and the walker-must ring down the curtain on this tragedy of sorrow and pain.

DRIVE RIGHT. WALK RIGHT. Then there will be no haunting memories of sudden, horrible, needless death or injury. No anguish and remorse that traffic tragedies bring. Grief is just one of two penalties you shall pay if you are at fault.

Government protection

The other penalty will be prosecution to the full extent of our state laws. Your state government will protect 10,000,000 Pennsylvanians. If you disobey traffic rules . . . if you are at fault in an accident . . . you face the loss of your driving license ... heavy fines . . . jail sentences. Pennsylvania will not relax in this effort to conserve the lives of our citizens. Our laws are on the side of that sacred commandment-THOU SHALT NOT KILL! ARE YOU?
